## Joris Organizes Resources In South africa

„Many small people who in many small places do many small things that can alter the face of the world.“

**Help to support local projects in South Africa! Every donation counts and goes directly to the local community!**

Together we would like to support four local projects here in the area. These include a dance school, a soup kitchen with a garden, a local soccer club in the township and the Young Bafana Soccer Academy, where I have been involved for a few months.
